Riveting Tools

**Industrial Riveter**

**FRT-10**
- It takes rivets from 2.4mm to 4.8mm
- Plier type tool used to set rivets and used extensively in the riveting industry.
- Suitable for: home repair and small-quantity outside repair work.
- Latch design allows tool to be carried safely in pocket.

**Hand Riveter**

**FTS-702**
- Up to 4.0mm for all materials and 4.8mm for aluminium
- Carbon steel forged housing and handle with powder surface.
- Jaw and jaw case are made of chrome steel and are heat treated.

**Heavy Duty Riveter**

**FRT-64**
- It takes rivets from 3.2mm to 6.4mm
- This riveter is suitable for industrial use. Heavy duty.
- It is a trellis type riveter and the lazy tong action reduces operator fatigue.
- Designed for low volume and batch production, ideal where lateral space is limited.

**Lazy Tong Riveter**

**FRT-50**
- It takes rivets from 3.2mm to 4.8mm
- This riveter is suitable for industrial use.
- It is a trellis type riveter and the lazy tong action reduces operator fatigue.
- Designed for low volume and batch production, ideal where lateral space is limited.
